Mouse Tales
Newsletter

January 2010 • Vol. 23 - 1

MEETING

Thursday Jan. 21

5:00 P.M. "Here To Help"

Bring your laptop (or just yourself) and enjoy a format with Beginners tables throughout the room -

- Basic Help
- Email
- It Doesn't Work
- iPhoto
- Internet

6:00 P.M. "Pages"

Carol Vertesch will demonstrate how using Pages as a word processing program is much more user friendly than using Appleworks. Since Apple no longer supports Appleworks, it is much easier to import your iPhoto pictures into a Pages document. Carol will show that and more, including how to convert your Appleworks word processing documents into Pages documents.

7:00 P.M. "What can I do if I can't find, receive or send my email?"

The secrets of POP, IMAP and all these mailboxes, and the alternate SMTP settings in your mail program - revealed in less than 45 minutes.

-
- Early front page edition •
